MEMORANDUM FOR THE DIRECTOR, CENTRAL INTELLIGENCE

SUBJECT: Accreditation Responsibilities for Automated SCI
Handling Systems - INFORMATION MEMORANDUM (U)

1. (C) This responds to your memorandum of 15 August 1984, NFIB-9.1/53, in which you request that delegations of accreditation authority be retained or returned to NFIB principals. As Director, National Security Agency/Chief, Central Security Service, I have retained accreditation authority for the cryptologic systems of entities external to the Intelligence Community, as well as those within the cryptologic community. My Deputy Director for Telecommunications and Computer Services executes the accreditation responsibility on my behalf for all Agency, Service Cryptologic Element, and contractor systems.

2. (C) Accreditation resources are inadequate and with the growth of automated systems that situation is likely to worsen. However, we have reallocated a number of billets out of our base for this purpose. I would expect to identify additional billet needs in future program submissions.

3. (C) I believe it is essential that I exercise accreditation authority for systems that process cryptologic information and intend to continue to pursue this responsibility vigorously.
